

Tomatoes – All Indeterminate (they need staking and side shoots removing) unless stated

Ailsa Craig – 1907 Salad Tomato 'Ailsa Craig' is particularly noted for the exceptional flavour of its fruit, which ripens early in the season. This well known gardener's favourite produces medium sized tomatoes with a uniform size and shape and an excellent deep colour. Grow this vigorous cordon variety in the greenhouse or outdoors. Height: 200cm (79")

Alicante Salad **RHS Award of Garden Merit** Alicante is best described as an improved Moneymaker type. Producing heavy crops of uniform smooth, medium size fruits of good flavour which are known for maturing quite early.

Banana Legs (Yellow Determinate) Salad or Paste An extremely prolific tomato, with 4" long yellow fruits that ripen to golden yellow. Popular to brighten up salads or make a tomato paste

Berkeley Tie Dyed (Green with yellow and pink stripes) *Beefsteak* 65-75 days. Every bite of this psychedelic-coloured beefsteak-type is an experience. Big, succulent fruit can reach 8-12 ounces with a complex blend of flavours. The vivid, rosy-blushed fruit has iridescent, green skin with sunny yellow streaks and an interior that's a fascinating kaleidoscope of green with trails of red and yellow. The relatively compact, indeterminate plants produce early for such a large, delectable tomato.

Berner Rose Salad "The rose from Bern" was selected for the purpose of preserving breed characteristics. Its very large fruits have a delicious, red flesh and a slightly pinkish skin. A real delicacy!

Black Opal (Black) Salad Cherry A dark chocolate coloured cherry tomato with a tangy yet sweet flavour and excellent texture. The small fruits are borne on long, branched trusses and can produce approximately 150 to 200 fruits per plant in an average growing season. Shows good disease tolerance.

Black Russian (Purple/Mahogany) Salad These medium sized *black tomatoes* grow on compact plants bearing plenty of *dark mahogany-brown* fruits, with a delicious blend of sugar and acid. *Tomato 'Black Russian'* is an old variety with a rich, complex flavour that has to be tasted to be believed..

Black Zebra Cherry (Purple/Mahogany) Salad Determinate plants with firm fruit that is a treat just to look at. Colourful, zebra-streaked skin surrounds a dark pinkish interior. Generously-sized cherry tomatoes are a burst of robust, full-bodied flavour that is outstanding and unique among its cherry tomato peers.

Brandywine (Pink) Beefsteak The most popular heirloom vegetable! A favourite of many gardeners; large fruit with superb flavour. A great potato-leaved variety from 1885! Beautiful pink fruit up to 1-1/2 lbs. each!

Brandywine Black (Purple/Mahogany) – late 1920s Beefsteak A combination of the classical rich Brandywine flavour with that of the sweeter taste from the darker skinned tomatoes. These tomatoes often weigh more than 500 grams. The plant is high yielding.

Carter's Golden Sunrise (Yellow) Salad **RHS Award of Garden Merit** Medium-sized yellow tomatoes with a distinctive flavour. Resistant to greenback. For cultivation under glass or outdoors. Recommended by the National Institute of Agricultural Botany.

Cherokee Purple (Purple/Mahogany) Beefsteak consistently ranks very high in taste tests. Slice Cherokee Purple tomato for rich, dark colour and unmatched sweet, rich taste on sandwiches or in salads. The tomato is a beautiful dusky pink with a deep, rich-red interior. Let the fruit ripen on the vine for the best flavour..

Cherrola F1 Cherry **RHS Award of Garden Merit**, A proven hybrid variety that you can rely on. Giving large trusses and high yields of tasty cherry tomatoes, which can be grown outside or in the greenhouse. Cherrola has a moderate tolerance to blight. One truss can bear up to 30 sweet tomatoes.

Costoluto Genovese (Red with Green Shoulders) Beefsteak
Large, juicy Italian heirloom tomato with an acidic-tart full-tomato flavour well suited for slicing and serving fresh or cooking

Costoluto di Parma Beefsteak. Large meaty heavily scalloped fruits with few seeds and excellent flavour. A traditional rustic mis-shapen tomato. Heavy cropping. A classic tomato from Emilia Romagna, a 'proper' tomato, old fashioned with a lovely 'lost' flavour for you to rediscover. Good for slicing and adding to salads or pizzas . Fruits weigh up to 180g

Cream Sausage. *Determinate* Indoor/Outdoor Variety. Ideal for making salsa or pasta sauce, the elongated, sausage-like fruits have a very good flavour. It is also a prolific cropper. For growing outdoors.

Gardener's Delight Cherry An easy to grow large cherry tomato you can grow, inside or out. A vegetable classic which outdid more modern forms in Sarah Raven's recent taste trials. If kept frost free, and the tips not pinched out, it crops until November. Its smaller fruit will ripen even when light levels are low.

Glacier Salad Determinant One of the earliest maturing varieties available withstanding far colder conditions than any other. A compact potato leafed 3ft variety producing 2-3in bright red fruits of excellent flavour. Performs well in cooler seasons readily setting fruit and continuing to produce over a long period

Green Zebra Salad Determinant The fruits of this heritage variety grow to approximately 2-3in/5-7cm in size, on large productive plants. The strikingly pale, *green* striped skin turns towards yellow on ripening but maintains its stripes! Sharper flavour than most tomatoes

Harbinger – 1891 Salad Harbinger tomato is an early Old English variety which produces a heavy yield of good flavoured medium size fruits. This variety has the added benefit that it can be grown under unheated protection as it tolerates the cool weather well.

Lemon Plum Salad Indoor or outside An unusual Heirloom variety originating from St Petersburg, producing huge crops of 2 In cute bright yellow fruits shaped exactly like a lemon on vigorous 4-5ft plants. The flavour is light and crisp with a solid flesh like a paste tomato. Extremely flexible for use in sauces or fresh. .

Marglobe (Determinate) -1917 Salad This old variety has heavy, vigorous vines that produce high yields of large (5-6 oz.), uniform, globe-shaped fruit. It is one of the first disease-resistant varieties; it served as a source of resistance in Rutgers tomato. Plants are determinate and fruits ripen all at once, making Marglobe a good canning tomato.

Marmande (Semi-Determinate) – 1939 Beefsteak **RHS Award of Garden Merit** Marmande' is a classic beefsteak large-fruited tomato which produces the large, firm scarlet-red, ribbed fruits each weighing 160 to 180 grams. This French heritage variety is famous throughout Europe; it is distinguished by its irregular cushion shape and touch of pink on the shoulders.

Outdoor Girl Salad. **RHS Award of Garden Merit** As the name suggests, has been bred for growing outdoors, either in the ground, grow bags or large containers. The fruits are medium sized, at around 60 - 80g and have good flavour. Outdoor Girl was notable in the fact that it can produce ripened fruits outdoors during a cool summer - if you don't have a greenhouse, this is one variety that you should be growing.

.Pantano Beefsteak Tall beef tomato from Rome - vigorous and productive with large semi scalloped fruits with few seeds and tasty, thick flesh. Pick when the shoulders are still green for a solid meal

Red Alert Salad Determinant One of the earliest fruiting tomatoes and a popular outdoor bush variety. Ideal for border or container growing and requires no support. The sweet, tasty fruit should be ready to pick just three months after sowing

Shirley F1 Salad Indoor or out An early, short-jointed type producing large trusses that give heavy yields of good-shaped fruits. It is a good choice for crops that are likely to be grown a bit colder than the norm. Plant habit is fairly open.

Sub-Arctic Plenty Salad Tomato Sub Arctic Plenty grow very well outdoors in cooler summers. Sets fruit well in cold conditions. Produces masses of large cherry sized fruits which have good flavour. Do you want to pick the first tomatoes outside? Then this variety is for you. The seeds can be started off in the unheated greenhouse. A very good variety if you are a novice gardener and trying to grow tomatoes the first time.

Sungold F1 Salad RHS Award of Garden Merit considered by many to be the best of the best for taste. Vigorous plants produce small delicious tasting orange coloured fruits on long trusses. If they make it back to the kitchen, they are great in salads. Best grown in the greenhouse, but can be used for planting outdoors later in the season.

Sweet Aperitif Cherry Salad RHS Award of Garden Merit an early-maturing cordon type, which produces heavy crops of small red fruits. It can either be grown in the greenhouse or used in growbags on the patio and has excellent flavour.

Tamina Salad Bred for outdoors A 'potato-leaved' variety that produces excellent crops of particularly tasty, medium sized tomatoes. The rounded, rich red fruits attain average weights of 75g (2½oz) and are especially well flavoured when cultivated outdoors, but can be grown in the greenhouse if preferred.

Tigrella Salad **RHS Award of Garden Merit** a favourite for many amateur gardeners for a very long time. The signature stripes on the skin are the key reason for this but it is also an easy variety to grow under cover. It does vary significantly depending on how and where it is grown.

Tumbling Tom Red & Yellow (*Determinate*) *Cherry* amazing hanging basket performance with stems cascading around the entire container. Early, prolific producer of sweet, delicious cherry tomatoes, each measuring 2 - 3cm in diameter that are ideal for salads, or straight onto the barbecue. Plant in containers as well as Hanging Baskets. For planting outdoors, but just as good in the greenhouse

Valencia Salad *Strong* plants and the taste is said to be very good - perfect balance of sweet and tangy, very fresh. The texture is great too, not a lot of seeds, not too watery. The skin is a bit thick, but very it's easy to peel.
